

Install Treelets on Windows 10 Professional

Install Docker Desktop on Windows Professional

- Create an account at Docker hub using the form <https://hub.docker.com/signup>
- Download and install the application using this tutorial: <https://docs.docker.com/docker-for-windows/install/> using default installation

Setup Treelets from a binary distribution

- Download treelets-docker application for Windows 10 Pro [Windows10Pro_24_03_2020.zip](#)
- Unzip
- Run Windows PowerShell in Administrator mode and go inside treelets-docker catalog
- # check docker version commands:

```
docker -v  
docker-compose -v
```

Run Docker

- # run in Windows PowerShell commands:

```
# Build  
docker-compose build  
# Running  
docker-compose up -d  
# View instances  
docker-compose ps
```

Verify your Treelets installation

- Open your favourite Browser and type: <http://localhost:8080>
